Subject No. 1

Note by the Secretary, Central Recruitment Board proposing the amplification of certain rules of recruitment.

N O T E.

Reference:-

Rules 5 and 6 of the Revised Rules of Recruitment dividing all appointments into two classes and prescribing the minimum qualifications for the same.

....

The division of all appointments into two classes, I and II, and the minimum general educational qualifications prescribed thereof are suitable so far as general appointments on a pay of Rs. 25 and above are concerned. There is no general provision in the rules prescribing the minimum qualifications for smaller appointments on a pay below Rs. 25/- except for appointments of teachers in Primary Schools, and for all technical appointments in class I and II except those of Typists and Steno-Typists.

a) Technical Appointments.

In respect of technical appointments, such as, Mechanics, Electricians, Artists, Compounders, Carpenters, Draftsmen, Sub-Overseers, Foremen, Fitters, Drivers, Helpers, Meter Readers, Operators and various kinds of Inspectors and Instructors, the practice is, however to have the same division of appointments into two classes and to prescribe the technical qualifications required

in addition to the general educational qualifications prescribed in the rules. It is not justifiable to insist the same standard of general educational qualifications for these appointments according to their pay in addition to the technical qualifications. As such appointments are too many and varied, it is not possible or desirable to have definite qualifications prescribed for all of them by a general order as at present. The following exception to Rule 6 of the Revised Rules of Recruitment may perhaps be included: ———

Exception: In the absence of any specific provision, the minimum qualifications for all technical appointments in class I and II shall be prescribed in consultation with the Central Recruitment Board as and when such appointments occur and are reported for advertisement.

9 General appointments on a pay below Rs. 20.

According to exception to Rule 5 of the Revised Rules the minimum qualification for appointment of teachers in Primary Schools recruited on an initial salary not exceeding Rs. 15 is a pass in the Lower Secondary Examination. All other general appointments on a pay below Rs.20 viz., Attenders, Collars, Mutsaddis, Dafterbands, Manegars, Pound-keepers, etc., fall under class II of appointments and the minimum qualification is, under the existing rules, S.S.L.C. In view of the low pay and nature of the work of these appointments, it is not desirable to insist on "S.S.L.C" as the

as the minimum qualification for these appointments. Actually, it has been the practice so far to prescribe "Lower Secondary" or "a certificate of having studied in the Vth form of a recognised High School" as the minimum qualification for these appointments. This is not ~~authorised~~ prescribed in the rules nor is it considered necessary or desirable ~~necessary~~ to have such high qualification for such small appointments. It is therefore suggested that the existing exception to Rule 5 of the Revised Rules may be amplified as follows:—

" In the case of teachers in Primary Schools recruited on an initial salary not exeeeding Rs. 15/- and in respect of other appointments on a pay below Rs.20 the minimum qualification will be a pass in the Lower Secondary Examination or a certificate of having studied in the Vth form of a recognised High School".

P. T. O

Note.

Subject No.2.
State the Secretary Board suggesting that in the case of posts on progressive scales which carry the minimum pay in Class II and the average pay of which falls in Class I, graduates may be appointed on a starting pay of Rs.35/- instead of on the minimum pay of the scales.

Although the division of all appointments into two classes and the minimum qualifications prescribed therefor in Rule 5 and 6 of the Revised Rules of Recruitment and suited to the conditions prevailing now, the explanations to the same rules require that pay in the case of posts carrying progressive scales shall be the average pay as calculated for financial purposes. This has caused hardship to graduates as well as to undergraduates, as according to this, most of the progressive scales carrying the minimum pay of Rs.25/- and 30/- fall under Class I and graduates are appointed only on the minimum pay of the scales and not on Rs.35/- which is the minimum pay fixed for class I appointments. Generally, they aim for attractive scales and higher starting pay of Rs.35/- and above and accept only appointments carrying such progressive scales and minimum pay in class I. This has created a large number of appointments in Class I and has correspondingly reduced the number of appointments in Class II. This has also resulted in a dearth of Non-Brahmin graduates and has reduced the chances of a large number of undergraduates who are readily available for such appointments. To meet the situation, non-brahmin under graduates have be

been permitted to be appointed temporarily pending the availability of graduates of Backward communities. It is therefore suggested that in the case of posts on progressive scales which ~~xxxxxxx~~ carry the minimum pay in Class II and the average pay of which falls in Class I, graduates may be appointed on a starting pay of Rs. 35/- instead of on the minimum pay of the scales. If the Board approves, the administrative Section will obtain sanction to financial concurrence.

Subject No.3.

Note by the Secretary Central Recruitment Board regarding the inclusion of the names of certain candidates of Class II lists who have since become Graduates in the lists for Class I of appointments.

When the Central Rcruitment Board approved lists were originally prepared, certain candidates were Under-Graduates eligible for appointment in Class II and they have subsequently become graduates qualifying for Class I of appointments. These candidates were recruited in Class II of appointments and they are now in service. They cannot come up for direct recruitment in Class I of appointments unless their names are in Class I lists and they can get into Class I by promotion only in such vacancies which are few and far between in every unit. The recommendation of the Unit Officers for inclusion of the names of such candidates in the list for Class I of appointments may be approved, their rank being suitably fixed in each unit.

The names of seven Brahmin candidates recommended by the Unit Officers are noted in the margin.

[redacted]ect No.4.

Proposal of the Inspector General of Police in Mysore suggesting that where an acting incumbent has shown aptitude for work and put in a service of a year permission may be given to confirm him before the end of 2 years.

N O T E.

According to Rule 22 of the Revised Rules of Recruitment a candidate selected for admission to the subordinate service by direct recruitment shall, from the date on which he joins duty as such, be on probation for a period of two years. The suggestion of the Inspector General of Police amounts to modification of the rule for one year. In this connection it is also for consideration, if previous services other than those rendered under the revised rules may also be taken into account in determining the period of probation.

The period of probation may perhaps be reduced to one year under the revised rules. Please see also Rule 29.

P.T.O

Subject No. 5

Proposal of the Chief Electrical Engineer in Mysore to fill up the appointments of Operators, &c., in the Executive Establishment of his department without reference to the C.R.B. Rules.

× Q

Note.

The appointments such as operators, &c., in the executive establishment of the Electrical Department were until recently exempted from the operation of the recruitment rules and in G.O. No. 988-98/E.D.S.× dated the 23rd November 1934 these appointments have been brought under the scope of the C.R.B. for being dealt with under the general rules of recruitment. In spite of this order of Government, the Chief Electrical Engineer insisted upon the old practice of filling up the appointments without reference to the C.R.B. but at last has recommended the following system to be adopted by him in filling up the appointments:—

One-third of the appointments to be filled up by graduates in Electrical Engineering; one-third by passed students of the Engineering School and the remaining one-third by promotion of men in the work establishment of the department.

He also wants to select candidates at his discretion and have waiting lists both "A" and 'B' for the above three groups separately.

Under the existing rules these vacancies have to be advertised individually as and when they occur prescribing Electrical Engineering Lower Grade Examination as the minimum qualification and the best available candidate has to be selected and appointed having due regard to the prin[illegible] of

providing for the adequate representation of all castes and communities in service.

Subject No. 6.

(Provisional)

Draft Progress Report of the Central Recruitment Board for 1930 - 1936

[Copies circulated to members.]

Subject No. 7

Revision of approved lists of candidates for several kinds of appointments:-

In accordance with the Revised Rules of Recruitment, approved lists of candidates for the several kinds of appointments were issued in the early part of 1935 and additions and alterations were also effected therein from time to time. The same lists are now in force and except the special lists for appointments in Class I and of Typists and Steno-typists, the other lists are sufficient to cope with the demand. In view of this, it is for consideration as to whether the approved lists may be revised or not.

If it is considered necessary to revise the lists, it is for consideration if the candidates in the present lists who have not yet been appointed should be shown preference for inclusion in the fresh lists to be prepared or whether they should be required to apply again afresh and take their chance along with other fresh candidates according to service, qualifications and age.

According to revised rules (Vide Rule 17) issued in July 1934, the lists are subject to revision once in a year but according to supplemental instructions issued in February 1935, the lists will remain in force until they are altered.
